## AGDealer Enewsletter

Below is an update from our sponsor. Stay tuned for more information in future issues of this newsletter.

[www.OutOfoorFarmShow.com](http://www.OutOfoorFarmShow.com) | 1-800-563-5441 | Canada's Outdoor Farm Show  
[info@outdoorfarmshow.com](mailto:info@outdoorfarmshow.com) | @outdoorfarmshow | canadасoutdoorfarmshow

Check out the latest offerings from these exhibitors scheduled to be at Canada's Outdoor Farm Show - September 13-15, 2016

**Hiniker Company**  
Booth: 4984 [MAP](#)  
Contact: 507-625-6621  
Website: [www.hiniker.com](http://www.hiniker.com)

Detect blocked NH3 knives with the new Hiniker Nitro-Lert™ anhydrous ammonia knife monitor. The free-standing system features an in-cab bar graph display that constantly monitors each manifold outlet for variations in flow rate, providing audible and visual alerts to the operator whenever a knife or a manifold outlet is plugged or partially blocked. The Nitro-Lert system does not interact or interfere with existing rate control systems. Sensors can be added to monitor up to 80 individual outlets.

**Yetter Manufacturing** [CLICK HERE](#)  
Booth: 5001 [MAP](#)  
Contact: [800-447-5777](tel:800-447-5777), [info@yetterco.com](mailto:info@yetterco.com) | Website: [www.yetterco.com](http://www.yetterco.com)

Yetter's innovative 2940 Air Adjust Series allows you to adjust up and down pressures with the touch of a button, creating the ideal ride for the residue managers. The in-cab controller allows for quick adjustments from your cab with the touch of a button, controlling five programmable settings and other functions. Planting conditions change every hour, every day. Save time and make adjustments for field conditions from your tractor seat. The 2940 Series of products includes the 2940 Residue Manager, Coupler/Residue Manager Combo, Firming Wheel, Rolling Basket and Floating Residue Manager Basket Combo.

**DigiFarm**  
Booth: 7263 [MAP](#)  
Website: [www.godigifarm.com](http://www.godigifarm.com)

The industry's first Apple MFi certified Bluetooth device and iOS NTRIP app to stream RTK data to any GPS receiver. The Beacon v3.0 delivers RTK corrections without the need for expensive radios or cellular modems and eliminates signal problems and line shifts. DigiFarm's Beacon v3.0 has been granted MFi (made for iPad) status for use with newer generation iPads and iPhones. The Beacon v3.0 was designed to take advantage of a changing industry where tablets are becoming a core component in a lot of tractor cabs.

## An Effective Way to Get Your Ag Product or Service In Front Of Motivated Clients Looking For Buying Information.

### WHAT IS IT?

Canada's Outdoor Farm Show **EXHIBITOR PREVIEW** eblast promotion connects your products and services with Canada's agricultural base.

Exhibitors now have a new way to connect with thousands of e-newsletter subscribers to well known Glacier FarmMedia brands. You can share information about your product or service and with just a single click, the reader will be directed to a company profile page on the Canada's Outdoor Farm Show website (below) There they can watch your video, schedule an appointment or demonstration at your booth, request more information by email, or even book a call with your sales staff.

We make it super-easy for clients to get information, and connect with your product! Get connected and start a conversation with folks that are farming, in the business, or have a connection to agriculture in some way.
